

# DEI&I-Taskforce

**Moira Kerstin Stamminger**  
People & Culture Manager

## Working together for diversity

**DE&I stands for diversity, equity and inclusion. It is not only ethically important, but also has a major impact on economic success. As a task force, we have been actively promoting diversity, equity and inclusion and developing concepts to sustainably promote them. We ensure that all employees feel equally responsible.**

Diverse teams are demonstrably more successful. Different perspectives generate new ideas, increase creativity and show that companies with diverse teams are more competitive, which is a clear competitive advantage in our company.

But as a digital subsidiary of SWR and BR, we not only have an entrepreneurial obligation, but above all a social responsibility. In our community, we are helping to create a more inclusive society. By expanding diversity, we are sending a clear signal for more equality and equal opportunities and are thus gradually helping to shape the future.
